User Guide

Whenever you are going to pay your affiliates, go to *Extensions > Modules* and click *Edit* for **Affiliate Mass Pay**. Configure the parameters and click *Prepare Transactions*.

At this point no transactions have been completed yet, but the data is ready, and if you need you can export it for PayPal Mass Pay and as CSV.

Always export before finalizing transactions.

Finally, just click *Confirm Transactions* button, all transactions will be performed and affiliate balances adjusted. If you choose to *Send Emails to affiliates* (these are regular transaction emails), that may take some time depending on the number of affiliates involved, be patient and do not close or reload the page.
